

**INNOVATIVE
IDEAS FOR YOUR
VIRTUAL
ONBOARDING
PROGRAMS**

VIRTUAL TOURS

A virtual tour of the office premises using 360-degree videos with hotspots to interact within specific areas.

SIMULATIONS

Simulations can help drive a deeper understanding of organizational processes and functional roles; these are ideal for delivering onboarding training to people set to occupy higher-level positions.

IMMERSIVE GAMES

The learning journey can be broken down into nuggets, infographics, activities, and games. The whole experience can be customized by allowing the new hire to choose an avatar, upload their photo, and share a description of themselves.

NETWORKING AND CHAT

In-house social apps with chat options can help new hires start conversations, voice their queries, and collaborate with ease.
